

# **Amendment to WZHVAC04012025**

## **Request for Proposal - HVAC SERVICES**

### **Weatherization Assistance Program**

The following has been added to **Attachment C – Subcontractor Compensation**

Subcontractors are not allowed to apply for any utility rebates for work performed for Utah Community Action. All utility rebates, and any claim to utility rebates, belong to Utah Community Action.

Subcontractors must not be debarred from any federally funded projects. Any agreement with a Subcontractor found to be debarred will be immediately terminated upon the date of debarment. The Agency will not make payments for any goods or services provided by a debarred Subcontractor. Any goods or services provided by a debarred Subcontractor will be deemed a charitable contribution and not reimbursable.

All labor costs need to specify an hourly rate.

**All other sections of the RFP remain in effect and the same.**
