Request for Bid

For UCA HJS Classroom Remodel 2025

Question & Answers

1. Is there an engineering estimated value for this project that we can use for the Bond Request?
  - a. No, please just use your bid value as the estimated project value for the Bond Request
2. Are emailed proposals for this remodel acceptable?
  - a. Yes, we will allow emailed proposals. They should be sent to [stacy.weight@utahca.org](mailto:stacy.weight@utahca.org)
3. After the walkthrough it was determined that some minor changes need to be made to construction documents. Based on those changes, can the deadline for proposals be extended?
  - a. Yes, due to the required minor changes, we will be extending the deadline for the RFP to May 29, 2025 at 4:00 PM
4. Do you have a structural plan/notes for the one structural wall being removed?
  - a. See structural drawings, means and methods by contractor.
5. Do you have a plan stating where new outlets and switches need to be located? Is there a detailed electrical plan?
  - a. See sheet E101.
6. Is the Contractor required to have Builder's Risk Insurance for this project?
  - a. Yes, the Contractor will be required to have Builder's Risk Insurance for this project.
7. What is the budget amount for the project?
  - a. We are primarily focused on ensuring that the project meets the required specifications and delivers value. We encourage all bidders to submit their most competitive pricing based on the outlined scope and deliverables.
8. Wall Type A4 and A6 on G001 call for 2x wood studs. Please advise if the contractor can use 20ga steel studs instead of the 2x wood studs?
  - a. Due to structural requirements, only 2x wood studs are to be provided for wall types.
9. G001 Material /product id list class for (MWA-1) Millwork Accessory with no information on the product wanted. Can a spec please be provided for this product?
  - a. See spec data column on the product id matrix on G001.
10. D9 on A101 Calls for the existing flooring. Please advise what the existing flooring is.
  - a. Existing flooring to be removed is carpet and resilient flooring.
11. Note 2 on A121 Calls for the floor to be patch where wall is to be removed. Please advise if the contractor will be using the owner attic stock to patch the floor. If its not provided by the owner can a spec please be provided?
  - a. See spec data column on the product id matrix on G001.
12. Can a spec please be provided for the door and frame wanted.
  - a. See specification 081113 Hollow Metal Doors and Frames and section 081416 Flush Wood Doors.
